**Subject:** Re: [EXTERNAL] Reno-Sparks Indian Colony correspondence to BLM

---

Good Afternoon Ms. Eben,  
 We received your correspondence dated July 28, 2021, in our office on August 5, 2021. We appreciate you responding to our request for consultation on the issuance of the Archeological Resources Protection Act (ARPA) Permit for the Historic Properties Treatment Plan (HPTP) for the Thacker Pass Project. The draft ARPA permit submitted by Far Western is, as stated, a draft document, which is not normally available to anyone outside of the BLM. Additionally, as you indicate, the documents contain mainly personal information of Far Western employees and other information that would not be suitable for release. The HPTP, which was previously sent to you, has the information regarding the type of the work that will be done under that plan and the information that would be needed to provide input into the ARPA permit. We look forward to receiving your written input or concerns regarding the ARPA permit. We would also like to a schedule consultation meeting and would be available for either an in-person meeting or a virtual meeting. We would also like to schedule regular consultation meetings to discuss upcoming projects located within our District. We will be sending a formal letter restating the information in this email, but I wanted to get this response to you as quickly as I could.  
 Thank you,

Kathleen Rehberg  
 Field Manager  
 Humboldt River Field Office
